

New Raman Reti Devotee Care

For years Srila Prabhupada's devotee community has worked to meet the **physical, emotional, and psychological** needs of the devotees by groups of individuals coming forward to volunteer their time and energy in service. These groups always enhanced our community over the years. However, our community has grown so large, that presently it has become impossible for

these small groups of people to continue to fulfill all of the community's needs.

**"THE WORSHIP OF MY DEVOTEES IS
BETTER THAN WORSHIP OF ME."**

- SRI KRISHNA 11.19.21

Mission Statement

To enhance the quality of life and maintain the dignity of community members through personalized care and wellness programs.

We Seek to Provide

- Spiritual, physical, and emotional support for community members
- Connecting the community with professional medical assistance:
 - Hospital visits
 - Prasadam delivery
- Companionship / Scriptural readings
- Nursing home / Home bound visits / Letter writing / Phone calls
